Proceedings resulting from violations of the Student Code of Conduct may be instituted prior to, simultaneous with, or following criminal proceedings off campus.

“Classification of Violations and Sanctions”

It is fundamental that an orderly school has clearly defined behaviors to which students must conform. Non-conformity to these behaviors becomes violations of the code of student conduct. Violations are grouped into three classes (Class I, Class II, and Class III), which range from the least to the most serious. Appropriate school personnel shall investigate, verify, and take the necessary action to resolve student misconduct. After determining

a violation and the classification of the violation, the principal or designee should implement the appropriate sanction. Violations apply to student conduct on a school campus, at school-related events, or while being transported to or from school or school-related events.

B. Additionally, the local school authorities should endeavor to give wide dissemination of rules and regulations through a variety of means, i.e., oral reviews, explanations to parent groups, publication in student newspapers. The board of education will also attempt to disseminate any special rules and regulations in a similar manner. The discrimination grievance procedure is on file in the principal's office.

IV. SUSPENSION/ EXPULSION/ CORPORAL PUNISHMENT

A. Suspension

The principal of each school is delegated the authority to suspend students for a maximum of ten days for violations of school rules and regulations or for disruptive or insubordinate behavior. Before suspending the student, the principal will give the student oral or written notice of the charges against him. If the student denies the charges, the principal will explain the evidence he has supporting the charges. The student will then be given an opportunity

to present his/her side of the story. The principal may then impose a suspension up to ten (10) days. The principal shall send a letter by U.S. mail to the parents of the student explaining the action taken.

Students whose presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process may be immediately removed from school. In such cases, the necessary notice and rudimentary hearing should follow as soon as practical.

The principal is entitled to reduce the suspension at any time during the term of the suspension if he determines it will be in the best interest of the school and the student.

If a principal decides to recommend a suspension in excess of ten (10) days or expulsion, he will provide the student with the same notice, opportunity to respond, and explanation of the evidence as set out above. Additionally, he will give the student written notice that he/she is recommending to the superintendent that he/she be suspended for a longer period or expelled.

A copy of the notice will also be mailed to the parent or guardian of the student. The notice will briefly explain the reasons for the disciplinary action and the right to a hearing by the board of education on the proposed disciplinary action. If parent or guardian feels a hearing is necessary, said hearing must be requested in writing, addressed to the superintendent.

In the case of suspensions of ten (10) days or less, the student or his/her parents may appeal to the superintendent. The superintendent will schedule a conference with the persons appealing, at which time the principal will present the reasons and the evidence supporting the suspension. The appealing party will be allowed an opportunity to present the reasons and evidence supporting the impropriety of the suspension. The superintendent is empowered to overrule or modify the suspension if he determines that the principal acted

arbitrarily or capriciously. If no hearing is requested the recommendation of the principal will be final.

If the student wishes to contest the proposed action, he/she must request, within five school days, a hearing in writing and present it to the superintendent. The board of education will hold a hearing on the recommendation within five school days of the receipt of the notice or the ten-day suspension period, whichever is later. If the notice is received later than five (5) days after the principal initially suspended the student and the superintendent determines a legitimate excuse exists for the failure to timely request the hearing, then the student shall remain suspended until the board holds a meeting. If no notice of appeal is given within five days after the initial suspension or if legitimate excuse exists for having failed an appeal after five days then the recommendation of the principal becomes binding.

B. Expulsion (total removal from a student's current education service)

A student with disabilities may not be expelled from school for any misbehavior that has a direct and significant relationship to that student's area of disability. If the IEP Committee determines that the behavior in question does not have a direct and significant relationship to the student's area of disability, the education agency may expel the student; however, a complete cessation of education services is not permissible.

Expulsion constitutes a change in placement, which requires due process through IEP Committee action.

C. Corporal Punishment

The board of education endorses the reasonable and restrained use of corporal punishment. A teacher or

principal only in the presence of another professional employee who has not been involved in the matters leading to the corporal punishment may administer corporal punishment. The corporal punishment is to be done outside the presence of other students. The student will be told the reasons for the punishment. If the student denies the reasons given, the evidence supporting the reasons will be given and the student will be afforded a chance to present his/her side of the story. The teacher and the witness will make a brief report stating the reason for the punishment and the amount and character of the punishment.

V. SEARCHES

A. Searches of students

When a principal or teacher has a reasonable suspicion that a student possesses contraband or materials disruptive to the educational process, a search of the student may be made. The principal or teacher will explain to the student his/her suspicion and the reasons supporting it. The principal or teacher does not have to reveal the name of his/her source. The student will then be allowed to present his/ her side of the story. If a search is to be made which requires touching the student, two persons of the same sex as the student will conduct the search.

B. Searches of School Property

Lockers and desks are the property of the Franklin County Board of Education. School officials retain the right to inspect and search lockers at their discretion. The Franklin County Board of Education will also allow law enforcement agencies to make periodic, unannounced visits to any of its local school centers for the purpose of detecting the presence of illegal drugs. If an individual

student's locker is to be searched, the principal or teacher conducting the search should attempt to have the student present if possible. If possible, a third person should also be present during the search.

Items prohibited by law, board policy, or local school regulations will be impounded and the student will be given a receipt for the same. The parents or legal guardians of the child will be notified of any items impounded.

VI. QUESTIONING BY POLICE

If law enforcement officers request to interview a student while at school, the principal will have the student come to his/her office. At that time, the principal and the student will call the parents or the legal guardians of the student to inform them of the request. The student will be told that he/she has the following options:

1. He/she may converse with his/her parent, guardian or attorney in private; or
2. He/she may decline to talk with the officers; or

4. He/she may talk with the officers in the presence of school officials; or
5. He/she may talk with the officers outside the presence of school officials.

CREDIT RECOVERY GUIDELINES

Franklin County Schools offers students who have been unsuccessful in mastering content or skills required to receive

course credit or earn promotion the opportunity to apply for Credit Recovery. Credit Recovery study is based on deficiencies rather than a repeat of the entire course. Students who have not achieved a baseline average of 40 or above (on a 100 point scale) or its equivalent on a locally adopted grading scale must repeat the entire course.

ADMISSION AND REMOVAL

Student Eligibility

Eligible students must meet all the following criteria:

- Currently enrolled in Franklin County Schools
- Must be classified in grades 9-12

Must have failed a course with no less than forty (40) as a final grade.

Application Procedures

In order to participate in the Credit Recovery (CR) Program, students must complete a CR application in full. A portion of the application must be completed by the student's guardian. Both the student and guardian must agree to abide by all rules of the program in order to regain lost credits.

A plan of study will be designed with input from teachers, guidance, and the principal. Both the student and guardian will sign off on the plan of study prior to the child's admission into the program.

Removal Policies

Students are expected to abide by all school rules in the Credit Recovery Program. Students may be dismissed from the program for lack of attendance (Four or more absences and/or tardies in a semester), disruptive behavior, lack of effort, or any other circumstance that prevents the student from successfully mastering the required course content. Guardians will be contacted by the principal regarding any issues that may lead to removal of the student from the program. The final decision for removal will be made by the principal.

INSTRUCTION

The Credit Recovery Program will be monitored through the school principals. Approved certified personnel trained in the credit recovery software (APEX) will serve as program instructors at each location. This instructor will be responsible for training students on the credit recovery software, collaborating with teachers and guidance, monitoring student success, providing assistance to students, and compiling pertinent information on student progress and scoring. In addition to the certified instructor, students will have access to Highly Qualified, certified teachers in the content area of the course they are attempting to recover throughout the school day.

CONTENT AND CURRICULUM

FCS will use a state approved program to offer credit recovery to students, grades 9-12. The program will provide an online learning environment containing self-paced, semester-long courses to allow students to recover lost credits in any of the four core academic areas: English, Math, Science, and Social Studies. The curriculum will be aligned with national standards, Alabama course of study, and the AHSGE competencies.

GRADES AND CREDITS

Only students who are currently enrolled in Franklin County Schools with a failing grade of forty (40) or above in a core academic course are eligible to enroll in the credit recovery program. Once a student in the credit recovery program demonstrates seventy percent (70) competency for the course objectives, as measured by the program, credit will be awarded for the course. The final grade for the course will be recorded as a seventy (70) with reflection on the student's transcript that this was earned in Credit recovery.

LIMITATIONS

The National Collegiate Athletic Association (NCAA) does not recognize Credit Recovery for course credit. Athletes should be aware of this limitation.

SUMMER SCHOOL

APEX will also be the track for any students that attend summer school during the month of June. If slots are available, students from other districts may be accepted. There will be a fee for students that attend summer school.

We believe that the benefits to users from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. But ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Franklin County Schools support and respect each family's right to decide whether or not to apply for access.

INTERNET AND E-MAIL RULES

- A. Users are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply.
- B. The network is provided for users to conduct research and communicate with others. Access to network services is given to users who agree to act in a considerate and responsible manner. Parent permission for student use is required. Access is a privilege—not a right. Access entails responsibility. Franklin County provides a firewall utilizing policy and proxy rules that filters and restricts harmful materials and inappropriate matter.

- C. Individual users of the system computer networks are responsible for their behavior and communications over those networks. It is presumed that users will comply with system standards and will honor the agreements they have signed.
- D. Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect files stored on system or outside servers using the Franklin County domain will be private. An individual search will be conducted if there is suspicion that a user has violated this policy or the law. The investigation will be reasonable and related to the suspected violation. Parents of students have the right at any time to request to see the contents of their child's e-mail files.
- E. Within reason, freedom of speech and access to information will be honored. This also applies to your communication on the Internet. Use of the Internet and electronic mail are considered a limited forum, similar to the school newspaper, and therefore the system may restrict a user's speech for valid educational reasons. During school, teachers of students will guide them toward appropriate materials. In addition, all use of the Internet and digital transmissions by students is to be supervised by the teacher or other school official. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, telephones, movies, radio and other potentially offensive media.
- F. The following are not permitted:
1. Accessing, uploading/downloading or distributing offensive or obscene messages or pictures.

2. Using obscene, sexually explicit or threatening language.
3. Harassing, insulting or attacking others.
4. Damaging computers, computer systems or computer networks.
5. Violating copyright laws.
6. Using another's password or private information.
7. Trespassing in another's folders, work or files.
8. Intentionally wasting limited resources.
9. Employing the network for commercial purposes.
10. The unauthorized disclosure, use, and dissemination of personal identification.
11. Gaining unauthorized access (hacking) to resources or entities.

The school system will cooperate fully with local, state, or federal officials in an investigation related to any illegal activities conducted through the system computer network. In the event there is a claim that a user has violated this policy, the user will be provided with a written notice of the suspected violation and an opportunity to present an explanation to school officials. Violations will result in additional restrictions being placed on an individual's use of the Internet/email account, a loss of access, and/or other disciplinary or legal action.

XXVIII. POLICY ON EXTRACURRICULAR ACTIVITY PARTICIPATION ACADEMICS FIRST

The Franklin County Board of Education recognizes the value of all extracurricular activities as they relate to the total education of students. The Franklin County Board of Education also recognizes and supports high academic standards and the necessity of developing a framework to annually assess each student involved in extracurricular activities and his/her progress toward graduating from high school on schedule with his/her class. This Board of Education also recognizes that the Class of 2000 and subsequent classes will be required by State Board of Education resolution and the Alabama Administrative Code to earn a minimum of 26 credits in Grades 9-12, with four (4) credits each in science, mathematics, social studies, and English.

The Franklin County Board of Education prescribes the following regulations for eligibility by students in this school system to participate in all extracurricular activities:

1. Student entering grades 10-12 must, for the immediately preceding school year, have a passing grade and earn the appropriate number of credits in each of six (6) subjects that total six (6) Carnegie units of credit, including four (4) credits from the four (4) core subjects composed of

English, science, social studies, and mathematics.

2. Physical education may count as only one (1) unit per year for eligibility determination.
 3. No more than two (2) Carnegie units may be made up during summer school. If a unit(s) or subject(s) is repeated in summer school, the higher numerical grade for the unit(s) or subject(s) may be used to compute the composite grade average.
4. Eligibility shall be determined on the first day of the local school year and shall remain in effect for one (1) complete school year. A student may not become eligible after school begins (after the first day of school). Bona fide transfers may be dealt with according to rules of the Alabama High School Athletic Association for sports and rules to be developed by this Board of Education as they pertain to other extracurricular activities.
5. Each eligible student must have a minimum composite numerical average of 70 on the six (6) Carnegie units from the preceding year, including summer school. Summer school work passed may substitute for regular schoolwork repeated in computing the 70 average.
6. Each eligible student involved in athletics must meet the definition of a regular student as defined by the Alabama High School Athletic Association.

Any student who earns more than four (4) credits in the core curriculum in any given year or who accumulates a total in excess of the required four (4) per year may exempt from earning the four

(4) core courses in the succeeding year as long as that students remains on schedule for graduation with his/her class.

Students entering grades 8 and 9 must, for the immediately preceding school year, have a passing grade in five (5) subjects with a composite numerical average of 70 with all other rules applying the same as to students in grades 9-12.

Students promoted to the seventh grade for the first time are eligible.

Extracurricular activities associated with athletics are defined as those recognized and sanctioned by the Alabama High School Athletic Association, and other extracurricular activities are defined as those that are sanctioned by a public school, which are not related to a student's academic requirements or success in a course(s). Regular curricular activities are defined as those that are required for satisfactory course completion. School sponsors are required to submit a request for each curricular activity that occurs outside the regular school day and/or school to the principal, superintendent, and the local Board of Education for approval. Each request for full participation by all students, regardless of academic standing, in a curricular activity shall be granted if the principal, superintendent, and the local Board of Education approve participation in the activity as an extension of a course(s) requirement(s) and it is an event sanctioned by a state/national subject matter association. Notwithstanding anything to the contrary in this policy, student participation in extracurricular activities offered by the school through math, science, band, choral music, and other courses at events such as athletic events (pre-game, game, halftime, or other breaks), club conventions, parades, amusement park trips and competitions, trips by tour companies, performances at various meetings, etc., are extracurricular, and students academically ineligible under this policy shall not be allowed to participate.

This policy is effective for all students in grades 8-12 beginning with the 1999-2000 school year with their eligibility determined by grades earned during the 1998-99 school year and 1999 summer school, and shall remain in effect for each succeeding year

in the same format as described herein. The local Board of Education shall implement this policy as a minimum for all students in grades 7-12 under its control. Each local Board of Education shall notify the State Superintendent of Education within 30 days of receipt of notice of adoption of this rule by the State Board of Education that it is in effect in all applicable schools within its jurisdiction

A. School Spirit

School spirit is something more than enthusiasm that prompts us to yell at athletic contests or stimulates us to defend our school when it is being attacked. School spirit is that atmosphere that is present every day in every phase of the school program.

School spirit should represent honesty, courtesy, genuine pride, good sportsmanship, and a sense of fair play among students, faculty, parents and school supporters.

B. Athletic Sportsmanship

The Franklin County Schools are members of the Alabama High School Athletic Association and strive to have the sports program to be an integral part of the school program. It is hoped that students and spectators will practice the sportsmanship code, which is as follows:

1. Keep in mind that a student spectator represents his school just as do the athletes.
2. Realize that the good name of the school is more valuable than any game won by unfair means.
3. Lead other spectators to respect officials by setting a good example and by

accepting decisions of officials without question.

4. Respond to the calls of the cheerleaders, especially when the team is losing.
5. Be courteous to the visiting team both on and off the field of play and to visiting spectators.
6. Impress upon the community the responsibility for control and fair play.
7. Suggest that any spectator who continually practices poor sportsmanship be requested to not attend future games.
8. Give fair, courteous and truthful accounts of athletic contests in local and school papers and to radio stations.
9. Commend and applaud good sportsmanship by the visiting team.
10. Express disapproval of abusive remarks or disrespectful gestures from the sidelines.
11. Be familiar with the state high school athletic rules and support their enforcement.
12. Encourage the discussion of fair play, sportsmanship, and school spirit through class work, auditorium programs, and school programs.

XXIX. GENERAL INFORMATION

- A. It would be impossible to specify every individual action, which would be detrimental to the learning process within a school. However, there are certain standards of conduct accepted by society in general which are essential to the operation of a school system. Examples include such things as mutual respect and courtesy among teachers and students, respect for private and public property and freedom from physical and verbal abuse, and a drug free environment.

- B. Situations occurring that are not addressed in this handbook will be handled by the principals on an individual basis. All students are requested and encouraged to conduct themselves in such a manner as to avoid interference in the education and well-being of other students.
